Message to Farmers

Following are some of the commodities in which you can deal with us very much to your advantage:

WOOL: We make a specialty of this item, watching the market closely and giving you the full benefit of it. We can guarantee you a better deal for your wool than you can get anywhere else.

BEST SCRANTON HARD COAL: Nat, stove and egg size. You don't need a pick and shovel, drag and spade of mules to remove the clinkers. Uniform heat, low in ash and free from stone and slate. Try it.

SOFT COAL of all kinds and the best of its kind.

HAMMOND'S DAIRY FEED: We have been fortunate enough to secure the agency for this splendid milk producer. Just like getting money from home. Saves you \$6.00 to \$7.00 on your feed and we can furnish you proof right in your own vicinity. We guarantee you more milk and richer milk than can be produced with any other kind of feed on the market. Car on hand. Try it.

NORTHERN GROWN SEED BEANS: Emmet County. Place your order early. Remarkable yield last year from this variety and from the same section.

ON HAND: Cotton Seed Meal, 41 and 43 per cent; Alfalfa Meal; Tested Seeds—June Clover, Mammoth Clover, Alsike Clover, Alfalfa, Timothy Seed; Montana and Wisconsin Grown Seed Oats, 45 and 47 lbs. per bushel; Salt; Tile in all sizes; Fence posts, 4 to 6 inch tops, 95 per cent green timber; Portland Cement; Fishack Wall Plaster.

FERTILIZER: Don't buy your fertilizer until you have had a talk with us. When parties go through the country selling fertilizer and telling you it is equal to Swift's at \$2 to \$3 less, you had better look into the matter before placing your order. We are sure you appreciate the fact that Swift & Co. are one of the most reputable fertilizer concerns doing business and are in as good a position as any to furnish high grade fertilizers at lowest consistent prices. When you come across the difference you can rest assured there is something wrong, and if you are offered fertilizer of the same analysis at a lower price the quality is not there.
